Practical Algorithms in Pediatric Endocrinology: (Practical Algorithms in Pediatrics. Series Editor: Z. Hochberg) From S. Karger

A Karger 'Publishing Highlights 1890–2015' title

Algorithms provide a logical, concise and cost-effective approach to medical reasoning: utilizing a concise, step-by-step approach based upon clues from the history, physical examination and laboratory studies, algorithms help avoid excessive unnecessary procedures and testing. The 2nd, revised edition of Practical Algorithms in Pediatric Endocrinology deals with practical issues of child growth, puberty, diseases of the endocrine glands, sexual differentiation, as well as aberrations of water, electrolyte, mineral and carbohydrate metabolism. Fifty clinical issues are covered by an algorithmic approach, breaking down long lists and tables of differential diagnosis into smaller, more manageable ones. Common clinical symptoms, signs and laboratory abnormalities are classified as they present themselves at the patient's bedside. This book is aimed at general practitioners and pediatricians, in particular those who are not exposed to pediatric endocrine problems on a daily basis, and at trainees in endocrinology and pediatric endocrinology as they acquire familiarity with clinical problem solving to make rational choices when facing clinical dilemmas.

Editorial Review

Users Review

From reader reviews:

David Ochoa:

Have you spare time to get a day? What do you do when you have more or little spare time? Yeah, you can choose the suitable activity with regard to spend your time. Any person spent their very own spare time to take a wander, shopping, or went to the Mall. How about open as well as read a book entitled Practical Algorithms in Pediatric Endocrinology: (Practical Algorithms in Pediatrics. Series Editor: Z. Hochberg)? Maybe it is to get best activity for you. You realize beside you can spend your time together with your favorite's book, you can better than before. Do you agree with it is opinion or you have other opinion?

Daphne Shew:

Information is provisions for people to get better life, information these days can get by anyone with everywhere. The information can be a understanding or any news even a concern. What people must be consider whenever those information which is in the former life are difficult to be find than now could be taking seriously which one would work to believe or which one the actual resource are convinced. If you receive the unstable resource then you buy it as your main information there will be huge disadvantage for you. All of those possibilities will not happen throughout you if you take Practical Algorithms in Pediatric Endocrinology: (Practical Algorithms in Pediatrics. Series Editor: Z. Hochberg) as the daily resource information.

Christopher Morton:

People live in this new day of lifestyle always try to and must have the free time or they will get great deal of stress from both lifestyle and work. So , when we ask do people have time, we will say absolutely sure. People is human not really a robot. Then we ask again, what kind of activity are you experiencing when the spare time coming to you actually of course your answer will unlimited right. Then do you ever try this one, reading books. It can be your alternative with spending your spare time, the particular book you have read is actually Practical Algorithms in Pediatric Endocrinology: (Practical Algorithms in Pediatrics. Series Editor: Z. Hochberg).

Patrick Austin:

What is your hobby? Have you heard that question when you got students? We believe that that problem was given by teacher for their students. Many kinds of hobby, Everyone has different hobby. So you know that little person such as reading or as reading become their hobby. You should know that reading is very

important along with book as to be the matter. Book is important thing to increase you knowledge, except your own teacher or lecturer. You see good news or update about something by book. Different categories of books that can you go onto be your object. One of them is actually Practical Algorithms in Pediatric Endocrinology: (Practical Algorithms in Pediatrics. Series Editor: Z. Hochberg).
