

Tourism Geography: Critical Understandings of Place, Space and Experience

By Stephen Williams, Alan A. Lew

Tourism Geography: Critical Understandings of Place, Space and Experience By Stephen Williams, Alan A. Lew

For human geographers, a central theme within the discipline is interpreting and understanding our changing world – a world in which geographic patterns are constantly being reworked by powerful forces of change. These forces include population shifts, new patterns of economic production and consumption, evolving social and political structures, new forms of urbanism, and globalisation and the compressions of time and space that are the product of the ongoing revolutions in information technology and telecommunications. This book attempts to show how tourism has also come to be a major force for change as an integral and indispensable part of the places in which we live, their economies and their societies. When scarcely a corner of the globe remains untouched by the influence of tourism, this is a phenomenon that we can no longer ignore.

Tourism is also an intensely geographic phenomenon. It exists through the desire of people to move in search of embodied experience of other places as individuals and en masse and at scales from the local to the increasingly global. Tourism creates distinctive relationships between people (as tourists) and the host spaces, places and people they visit, which has significant implications for destination development and resource use and exploitation, which are exhibited through a range of economic, social, cultural and environmental impacts that have important implications for local geographies.

This third edition of *Tourism Geography: critical understandings of place, space and experience* presents an essential understanding of critical perspectives on how tourism places and spaces are created and maintained. Drawing on the holistic nature of geography, a range of social science disciplinary views are presented, including both historical and contemporary perspectives. Fundamentally, however, the book strives to connect tourism to key geographical concepts of globalisation, mobility, production and consumption, physical landscapes, and post-industrial change. The book is arranged in five parts. Part I provides an overview of fundamental tourism definitions and concepts, along with an introduction to some of the major themes in contemporary geographic research on tourism, which are further developed in subsequent chapters of this book. In Part II the discussion focuses on how spatial patterns of modern tourism

have evolved through time from regional to global geographies. Part III offers an extended discussion of how tourism relates to places that are toured through their economic landscape, contemporary environmental change and socio-cultural relations. Part IV explores a range of major themes in the geographies of tourism, including place creation and promotion, the transformation of urban tourism, heritage and place identity, and creating personal identity through consumption, encounters with nature and other embodied forms of tourism experience. Part V turns to applied geography with an overview of the different roles of planning for tourism as a means of spatial regulation of the activity, and a look at emerging themes in the critical geography of contemporary and future geographies of tourism.

This third edition has been revised by Dr Alan A. Lew, who becomes the new co-author of *Tourism Geography*. Some of the major revisions that I have incorporated include moving most of the case study boxes to the website <http://tourismgeography.com>, which will provide a growing wealth of new case studies, over time. I have also incorporated new material, reorganised some of the content to balance the topics covered, created a new concluding chapter that explores some recently emerging perspectives in critical tourism geography, and re-written the text to make it more accessible to a global English-speaking world. That said, the book is still very much the work of Dr Stephen Williams. As such, it maintains its original concise yet comprehensive review of contemporary tourism geography and the ways in which geographers critically interpret this important global phenomenon. It is written as an introductory text for students, and includes guidance for further study in each chapter that can form the basis for independent work. Lecturers using this textbook are welcome to contribute to the book's content developing through the supporting website by contacting me at any time.

Editorial Review

About the Author

Stephen Williams is Emeritus Professor of Human Geography at Staffordshire University, UK. His extensive interests in recreation and tourism are reflected in his publications, which include *Outdoor Recreation and the Urban Environment* (Routledge), *Tourism and Recreation* (Prentice Hall) and a four-volume edited work *Tourism: critical concepts in the social sciences* (Routledge).

Alan A. Lew is Professor of Geography, Planning and Recreation at Northern Arizona University, USA. He is the founding editor-in-chief of the journal *Tourism Geographies* and his publications include *World Regional Geography: tourism destinations, human mobilities, sustainable environments* (Kendall-Hunt) and *Understanding and Managing Tourism Impacts: an integrated approach* (Routledge).

Users Review

From reader reviews:

Tom Burkhardt:

Reading a reserve tends to be new life style within this era globalization. With examining you can get a lot of information which will give you benefit in your life. With book everyone in this world may share their idea. Textbooks can also inspire a lot of people. A great deal of author can inspire their particular reader with their story or maybe their experience. Not only the story that share in the books. But also they write about the information about something that you need example. How to get the good score toefl, or how to teach your young ones, there are many kinds of book that exist now. The authors these days always try to improve their talent in writing, they also doing some analysis before they write to the book. One of them is this *Tourism Geography: Critical Understandings of Place, Space and Experience*.

Carol Ratliff:

Many people spending their time period by playing outside along with friends, fun activity with family or just watching TV the whole day. You can have new activity to invest your whole day by reading a book. Ugh, think reading a book can definitely hard because you have to bring the book everywhere? It okay you can have the e-book, bringing everywhere you want in your Mobile phone. Like *Tourism Geography: Critical Understandings of Place, Space and Experience* which is obtaining the e-book version. So , why not try out this book? Let's notice.

Irma Tijerina:

Is it you actually who having spare time after that spend it whole day by watching television programs or just lying on the bed? Do you need something totally new? This *Tourism Geography: Critical Understandings of Place, Space and Experience* can be the respond to, oh how comes? A book you know. You are and so out of

date, spending your extra time by reading in this brand new era is common not a geek activity. So what these guides have than the others?

Bruce Alexander:

Do you like reading a book? Confuse to looking for your chosen book? Or your book ended up being rare? Why so many question for the book? But any people feel that they enjoy with regard to reading. Some people likes studying, not only science book but in addition novel and Tourism Geography: Critical Understandings of Place, Space and Experience or maybe others sources were given knowledge for you. After you know how the truly amazing a book, you feel wish to read more and more. Science publication was created for teacher or students especially. Those textbooks are helping them to increase their knowledge. In other case, beside science reserve, any other book likes Tourism Geography: Critical Understandings of Place, Space and Experience to make your spare time more colorful. Many types of book like this one.
