Editorial Review

About the Author

Nick Psaris has been developing automated trading systems for over 15 years. After graduating Duke University with a degree in Physics and Chinese, he began his career in finance at Morgan Stanley in New York. He obtained his CFA charter in 2003, and a Masters in Computational Finance from the Tepper School of Business at Carnegie Mellon University in 2006. Nick then moved to Hong Kong and built an equity portfolio trading and backtesting system in q. After spending three years at Liquid Capital Markets Hong Kong building a high frequency automated market making system in q, he is now building an inventory optimization platform in q at a top tier American investment bank. Q Tips is based on his years of practical experience developing production trading systems in q.

Users Review

From reader reviews:

Dorothy Bernstein:

Have you spare time to get a day? What do you do when you have a lot more or little spare time? Yeah, you can choose the suitable activity to get spend your time. Any person spent their particular spare time to take a wander, shopping, or went to the Mall. How about open or even read a book eligible Q Tips: Fast, Scalable and Maintainable Kdb+? Maybe it is to get best activity for you. You realize beside you can spend your time using your favorite's book, you can wiser than before. Do you agree with their opinion or you have other opinion?

Wendy Cort:

Playing with family in a park, coming to see the sea world or hanging out with friends is thing that usually you have done when you have spare time, and then why you don't try issue that really opposite from that. 1 activity that make you not feeling tired but still relaxing, trilling like on roller coaster you are ride on and with addition info. Even you love Q Tips: Fast, Scalable and Maintainable Kdb+, you can enjoy both. It is good combination right, you still want to miss it? What kind of hang type is it? Oh occur its mind hangout men. What? Still don't get it, oh come on its called reading friends.

Anita Burns:

Your reading 6th sense will not betray a person, why because this Q Tips: Fast, Scalable and Maintainable Kdb+ publication written by well-known writer who knows well how to make book which can be understand by anyone who also read the book. Written within good manner for you, leaking every ideas and creating skill only for eliminate your own hunger then you still doubt Q Tips: Fast, Scalable and Maintainable Kdb+ as good book but not only by the cover but also through the content. This is one e-book that can break don't judge book by its cover, so do you still needing another sixth sense to pick this specific!? Oh come on your studying sixth sense already said so why you have to listening to another sixth sense.

Elizabeth Acker:

This Q Tips: Fast, Scalable and Maintainable Kdb+ is great e-book for you because the content which can be full of information for you who all always deal with world and possess to make decision every minute. That book reveal it information accurately using great organize word or we can say no rambling sentences inside. So if you are read that hurriedly you can have whole data in it. Doesn't mean it only provides straight forward sentences but challenging core information with beautiful delivering sentences. Having Q Tips: Fast, Scalable and Maintainable Kdb+ in your hand like finding the world in your arm, details in it is not ridiculous one particular. We can say that no publication that offer you world inside ten or fifteen tiny right but this book already do that. So , this is good reading book. Hello Mr. and Mrs. busy do you still doubt in which?
