# Core JavaServer Faces (3rd Edition)

*By David Geary, Cay S. Horstmann*

**Core JavaServer Faces (3rd Edition)** By David Geary, Cay S. Horstmann

JavaServer Faces (JSF) is the standard Java EE technology for building web user interfaces. It provides a powerful framework for developing server-side applications, allowing you to cleanly separate visual presentation and application logic. JSF 2.0 is a major upgrade, which not only adds many useful features but also greatly simplifies the programming model by using annotations and "convention over configuration" for common tasks.

To help you quickly tap into the power of JSF 2.0, the third edition of *Core JavaServer™ Faces* **has been completely updated to make optimum use of all the new features. The book includes**

- Three totally new chapters on using Facelets tags for templating, building composite components, and developing Ajax applications
- Guidance on building robust applications with minimal hand coding and maximum productivity–without requiring any knowledge of servlets or other low-level "plumbing"
- A complete explanation of the basic building blocks–from using standard JSF tags, to working with data tables, and converting and validating input
- Coverage of advanced tasks, such as event handling, extending the JSF framework, and connecting to external services
- Solutions to a variety of common challenges, including notes on debugging and troubleshooting, in addition to implementation details and working code for features that are missing from JSF
- Proven solutions, hints, tips, and "how-tos" show you how to use JSF effectively in your development projects

*Core JavaServer™ Faces, Third Edition,* **provides everything you need to master the powerful and time-saving features of JSF 2.0 and is the perfect guide for programmers developing Java EE 6 web apps on Glassfish or another Java EE 6-compliant application servers, as well as servlet runners such as Tomcat 6.**

## Editorial Review

From the Back Cover
JavaServer Faces (JSF) is the standard Java EE technology for building web user interfaces. It provides a powerful framework for developing server-side applications, allowing you to cleanly separate visual presentation and application logic. JSF 2.0 is a major upgrade, which not only adds many useful features but also greatly simplifies the programming model by using annotations and "convention over configuration" for common tasks. To help you quickly tap into the power of JSF 2.0, the third edition of "Core JavaServer(TM) Faces" has been completely updated to make optimum use of all the new features. The book includes

- Three totally new chapters on using Facelets tags for templating, building composite components, and developing Ajax applications
- Guidance on building robust applications with minimal hand coding and maximum productivity-without requiring any knowledge of servlets or other low-level "plumbing"
- A complete explanation of the basic building blocks-from using standard JSF tags, to working with data tables, and converting and validating input
- Coverage of advanced tasks, such as event handling, extending the JSF framework, and connecting to external services
- Solutions to a variety of common challenges, including notes on debugging and troubleshooting, in addition to implementation details and working code for features that are missing from JSF
- Proven solutions, hints, tips, and "how-tos" show you how to use JSF effectively in your development projects

"Core JavaServer(TM) Faces, Third Edition, " provides everything you need to master the powerful and time-saving features of JSF 2.0 and is the perfect guide for programmers developing Java EE 6 web apps on Glassfish or another Java EE 6-compliant application servers, as well as servlet runners such as Tomcat 6.

About the Author

**David Geary** is president of Clarity Training Inc. (http://corewebdevelopment.com), a training and consulting company and is the author of eight books on Java technology, including the best-selling *Graphic Java™ 2* series (1999), *Advanced JavaServer Pages* (2001), and *Google™ Web Toolkit Solutions* (2008), all from Prentice Hall. David is a member of the JSF expert group, a frequent speaker at many software conferences, a Java Champion, and is a three-time JavaOne Rock Star.

**Cay S. Horstmann** is principal author of *Core Java™ Volumes I & II, Eighth Edition* (Prentice Hall, 2008). Cay is a professor of computer science at San Jose State University, a Java Champion, and a frequent speaker at computer industry conferences.

## Users Review

**From reader reviews:**

**Frances Lockhart:**

The ability that you get from Core JavaServer Faces (3rd Edition) will be the more deep you excavating the information that hide within the words the more you get interested in reading it. It doesn't mean that this

book is hard to recognise but Core JavaServer Faces (3rd Edition) giving you buzz feeling of reading. The article author conveys their point in selected way that can be understood through anyone who read this because the author of this book is well-known enough. This book also makes your own vocabulary increase well. That makes it easy to understand then can go with you, both in printed or e-book style are available. We highly recommend you for having this particular Core JavaServer Faces (3rd Edition) instantly.

**Alan Durham:**

Do you like reading a e-book? Confuse to looking for your preferred book? Or your book ended up being rare? Why so many concern for the book? But just about any people feel that they enjoy for reading. Some people likes examining, not only science book but in addition novel and Core JavaServer Faces (3rd Edition) or even others sources were given information for you. After you know how the truly great a book, you feel desire to read more and more. Science book was created for teacher or maybe students especially. Those textbooks are helping them to add their knowledge. In some other case, beside science reserve, any other book likes Core JavaServer Faces (3rd Edition) to make your spare time far more colorful. Many types of book like this.

**Nelson Berg:**

A lot of guide has printed but it is different. You can get it by world wide web on social media. You can choose the top book for you, science, witty, novel, or whatever by means of searching from it. It is referred to as of book Core JavaServer Faces (3rd Edition). Contain your knowledge by it. Without leaving the printed book, it can add your knowledge and make you happier to read. It is most crucial that, you must aware about publication. It can bring you from one destination for a other place.

**Roberta Nieves:**

Reading a guide make you to get more knowledge from this. You can take knowledge and information coming from a book. Book is published or printed or created from each source that will filled update of news. On this modern era like right now, many ways to get information are available for a person. From media social such as newspaper, magazines, science reserve, encyclopedia, reference book, fresh and comic. You can add your knowledge by that book. Are you ready to spend your spare time to open your book? Or just looking for the Core JavaServer Faces (3rd Edition) when you desired it?
