Evolutionary Humanoid Robotics (SpringerBriefs in Intelligent Systems) By Malachy Eaton

This book examines how two distinct strands of research on autonomous robots, evolutionary robotics and humanoid robot research, are converging. The book will be valuable for researchers and postgraduate students working in the areas of evolutionary robotics and bio-inspired computing.

Editorial Review

Review

"[The book] sheds light at the intersection of evolutionary search and robotics, with a special focus on humanoid or human-like robots. It is a skill to hit the right spot between introducing newcomers to a concept while also informing researchers already in the field. [The author] manages to do just that by delivering a nice flowing, quick to read book. ... I can recommend this book to starting graduate students in the fields of computer science and/or robotics, or researchers looking to get started with evolutionary robotics. ... The book's gaze is on humanoid robotics and Eaton does a good job at defining the terminology ... describing the various gradations of distinction between evolutionary robotics and evolutionary humanoid robotics, thus leading the reader to a more fundamental understanding of the levels of humanoid robots. ... a well-written, thoroughly researched introduction ... a wonderful guide for finding relevant references in the field. I highly recommend it for young researchers starting out in the field of EHR [and] people interested in the general idea of evolving robotic systems, both for humanoids and non-humanoid robots." [Jürgen Leitner, Genetic Programming and Evolvable Machines, 2015, DOI 10.1007/s10710-015-9256-2]

From the Back Cover

This book examines how two distinct strands of research on autonomous robots, evolutionary robotics and humanoid robot research, are converging. The book will be valuable for researchers and postgraduate students working in the areas of evolutionary robotics and bio-inspired computing.

About the Author

Dr. Malachy Eaton is a lecturer and researcher in the Dept. of Computer Science and Information Systems of the University of Limerick, Ireland. His interests include evolutionary computing and humanoid robotics.

Users Review

From reader reviews:

Carrie Correll:

As people who live in typically the modest era should be update about what going on or facts even knowledge to make them keep up with the era that is certainly always change and move forward. Some of you maybe may update themselves by reading through books. It is a good choice in your case but the problems coming to you is you don't know which you should start with. This Evolutionary Humanoid Robotics (SpringerBriefs in Intelligent Systems) is our recommendation to cause you to keep up with the world. Why, because book serves what you want and need in this era.

Andre Todd:

The actual book Evolutionary Humanoid Robotics (SpringerBriefs in Intelligent Systems) will bring you to the new experience of reading any book. The author style to spell out the idea is very unique. In the event you try to find new book to see, this book very suitable to you. The book Evolutionary Humanoid Robotics (SpringerBriefs in Intelligent Systems) is much recommended to you to read. You can also get the e-book from your official web site, so you can quicker to read the book.

Winford Patterson:

Do you have something that you want such as book? The e-book lovers usually prefer to pick book like comic, limited story and the biggest some may be novel. Now, why not striving Evolutionary Humanoid Robotics (SpringerBriefs in Intelligent Systems) that give your entertainment preference will be satisfied by reading this book. Reading addiction all over the world can be said as the opportunity for people to know world considerably better then how they react in the direction of the world. It can't be mentioned constantly that reading practice only for the geeky person but for all of you who wants to be success person. So , for every you who want to start looking at as your good habit, you can pick Evolutionary Humanoid Robotics (SpringerBriefs in Intelligent Systems) become your starter.

Felix Smith:

You can find this Evolutionary Humanoid Robotics (SpringerBriefs in Intelligent Systems) by go to the bookstore or Mall. Just viewing or reviewing it could possibly to be your solve problem if you get difficulties for ones knowledge. Kinds of this publication are various. Not only by simply written or printed but can you enjoy this book by means of e-book. In the modern era just like now, you just looking from your mobile phone and searching what their problem. Right now, choose your current ways to get more information about your book. It is most important to arrange you to ultimately make your knowledge are still update. Let's try to choose suitable ways for you.
