#### From the Back Cover

Logan and Zoe are determined to figure out who has been sabotaging the Menagerie. But while they race to uncover the culprit, their troubles only get worse. The deadly basilisk escapes its enclosure and the merpeople go on strike, leaving the kraken to its own devices.

As Logan and Zoe investigate, they begin to uncover clues that might help them solve an even bigger mystery. What happened to Logan's mom, the famous Tracker Abigail Hardy? Why did she disappear en route to the Menagerie? And where is she now?

Whatever the truth is, Logan and Zoe have learned one thing—when mythical creatures are involved, expect the unexpected.

#### About the Author

Tui T. Sutherland & Kari Sutherland are sisters and best friends, and if you can't tell by looking at them which one is older, Tui certainly isn't going to tell you. They grew up in South America, traveling a lot and moving several times (and they're still only about 80 percent certain that their parents weren't secret agents). Kari now lives in California, while Tui lives in Boston, but they use every excuse they can to see each other (like, say, writing a book together).
