Merrill's Pocket Guide to Radiography, 12e By Eugene D. Frank MA RT(R) FASRT FAEIRS, Barbara J. Smith MS RT(R)(QM) FASRT FAEIRS, Bruce W. Long MS RT(R)(CV) FASRT

Designed for quick reference in the clinical environment, **Merrill's Pocket Guide to Radiography** is a pocket-sized companion to *Merrill's Atlas of Radiographic Positioning and Procedures, 12th Edition*. This handy resource summarizes essential information for 170 of the most frequently requested projections you'll encounter. Authors Eugene Frank, Barbara Smith, and Bruce Long concisely present just the information you'll need for quick reference -- keep it with you and keep *Merrill's* close at hand!

- **Diagnostic-quality radiographs** demonstrate desired imaging results.
- **Key positioning information** is formatted for quick and easy access.
- **Each procedure is presented in a two-color, two-page spread** with bulleted, step-by-step procedures and accompanying images on the top page; and a chart with spaces to fill in the specific techniques used for a particular projection on the bottom page.
- **Section dividers with tabs** offer quick access to each section.
- **Computed radiography information** allows you to make the subtle adjustments necessary to obtain optimal results with CR.
- **Exposure technique chart for every projection** helps reduce the number of repeat radiographs and improves overall image quality.
- **Abbreviations and external landmark charts** on the inside covers provide quick access to frequently needed information.
- **kVp values** are included for each projection.
- **Compensating filter information** included for those projections where filters are used.
- New exposure index column for use with digital imaging systems
- Specific collimation settings for all projections done using DR Systems

Editorial Review

Users Review

From reader reviews:

Susannah Williams:

In this 21st millennium, people become competitive in each and every way. By being competitive now, people have do something to make these survives, being in the middle of the crowded place and notice simply by surrounding. One thing that occasionally many people have underestimated the idea for a while is reading. Yes, by reading a guide your ability to survive enhance then having chance to stand than other is high. To suit your needs who want to start reading any book, we give you that Merrill's Pocket Guide to Radiography, 12e book as beginning and daily reading reserve. Why, because this book is usually more than just a book.

Danielle Deguzman:

Reading a publication tends to be new life style within this era globalization. With studying you can get a lot of information that may give you benefit in your life. Using book everyone in this world may share their idea. Books can also inspire a lot of people. Many author can inspire their very own reader with their story or maybe their experience. Not only the storyline that share in the ebooks. But also they write about advantage about something that you need example of this. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that exist now. The authors nowadays always try to improve their talent in writing, they also doing some research before they write with their book. One of them is this Merrill's Pocket Guide to Radiography, 12e.

Wendy Lambert:

Do you like reading a publication? Confuse to looking for your selected book? Or your book had been rare? Why so many issue for the book? But just about any people feel that they enjoy with regard to reading. Some people likes reading through, not only science book but also novel and Merrill's Pocket Guide to Radiography, 12e or perhaps others sources were given know-how for you. After you know how the fantastic a book, you feel desire to read more and more. Science book was created for teacher or perhaps students especially. Those books are helping them to increase their knowledge. In additional case, beside science book, any other book likes Merrill's Pocket Guide to Radiography, 12e to make your spare time a lot more colorful. Many types of book like here.

Kimberley Bailey:

As a pupil exactly feel bored for you to reading. If their teacher asked them to go to the library or to make summary for some publication, they are complained. Just small students that has reading's heart or real their interest. They just do what the instructor want, like asked to go to the library. They go to presently there but nothing reading significantly. Any students feel that reading is not important, boring in addition to can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore this Merrill's Pocket Guide to Radiography, 12e can make you feel more interested to read.
