Stuck near the bottom of the social ladder at “pretty much the lowest level of people at school who aren’t paid to be here,” Maya has never been popular. But before starting eighth grade, she decides to begin a unique social experiment: spend the school year following a 1950s popularity guide, written by former teen model Betty Cornell.

### **Editorial Review**

From School Library Journal

Gr 7 Up—The bright and perceptive Van Wagenen wanted to boost her popularity in middle school. As a self-defined "Social Outcast, the lowest level of people at school who weren't paid to be there," the eighth-grader had quite a climb ahead of her. Her *modus operandi* was intriguing: she used a 1950s teen etiquette book that her father found at a thrift store as a guide to climb the social ladder. The clash of eras and cultures is funny—the author wears a girdle, hat, and pearls to class; learns how to apply makeup; improves her posture and poise; and tries a diet. But the best lessons she learns from Fifties teen model Betty Cornell's *Teen-Age Popularity Guide* are about how to talk to and understand the people around her. Bravely visiting all the various cliques in the lunchroom and making conversation with her secret Sunday school crush, she becomes even more sensitive and aware—and yes, more popular. Van Wagenen's tone is personable and polished. Even though she has many typical tween obsessions and concerns, her writing is surprisingly mature. While overall this light memoir provides plenty of fun, it has a grittier backdrop than the cover and description might suggest. Van Wagenen's school, in Brownsville, TX, near the Mexican border, commonly experiences lockdown drills and warnings against gangs, and she casually mentions that smoke from a drug war in Matamoros, Mexico, is visible from her house. The part-Hispanic teen also occasionally sprinkles in Spanish words. With a DreamWorks movie option in the works, this entertaining title should be in demand.—Liz French, *Library Journal*
