**Putting the Practices Into Action: Implementing the Common Core Standards for Mathematical Practice, K-8** By Susan O'Connell, John SanGiovanni

Read Chapter 2: **Exploring Standard 1: Make Sense of Problems and Persevere in Solving Them**

*"This book will be your roadmap to implementing the CCSS Standards for Mathematical Practice. The explanations, examples, activities, and suggestions are intended to guide you to a deepened understanding of the Practice Standards so your classroom is filled with students who reason, apply, and truly understand mathematics." Susan O'Connell and John SanGiovanni*

The Standards for Mathematical Practice promise to elevate students' learning of math from knowledge to application and bring rigor to our math classrooms. But how can we incorporate the Practices into our teaching and ensure that our students develop these critical skills? **Sue O'Connell and John SanGiovanni** unpack each of the eight Practices and provide a wealth of practical ideas and activities to help you quickly integrate them into your existing math program. *Putting the Practices Into Action* breaks each standard down to address:

- why the standard is important
- how to interpret and understand the standard
- how to bring the standard into your current teaching.

The authors show the true power of the standards by describing how they intermingle, blending together to empower students to use math and think mathematically. With classroom vignettes, sample activities, and helpful teaching tips, *Putting the Practices Into Action* brings the standards to life by illustrating what they look like in real classrooms. Discover how to integrate the Practices into your teaching, and let the journey of implementation begin.

### **Editorial Review**

#### **About the Author**

Susan O'Connell has decades of experience supporting teachers in making sense of mathematics and effectively shifting how they teach. As a former elementary teacher, reading specialist, and math coach, Sue knows what it's like in the classroom and her background is evident throughout her work as she unpacks best practices in a clear, practical, and upbeat way. She is the lead author of *Math in Practice*, a new grade-by-grade K-5 professional learning resource. She is also coauthor of the bestselling *Putting the Practices Into Action*, *Mastering the Basic Math Facts in Addition and Subtraction*, and *Mastering the Basic Math Facts in Multiplication and Division*. She served as editor of Heinemann's popular *Math Process Standards* series and also wrote the bestselling *Now I Get It*. Sue is a nationally known speaker and education consultant who directs Quality Teacher Development, an organization committed to providing outstanding math professional development for schools and districts across the country. Watch an introductory *Math in Practice* webinar, hosted by Sue. Click here to watch Sue talk about the links between reading and math. Connect with Sue on Twitter @SueOConnellMath

John SanGiovanni is a mathematics supervisor for the Howard County Public School System in Maryland. He is an adjunct instructor and frequent speaker at both regional and national conferences.

### **Users Review**

#### **From reader reviews:**

##### **Matthew Waddell:**

Hey guys, do you want to find a new book to see? May be the book with the subject *Putting the Practices Into Action: Implementing the Common Core Standards for Mathematical Practice, K-8* suitable to you? Typically the book was written by renowned writer in this era. The particular book untitled *Putting the Practices Into Action: Implementing the Common Core Standards for Mathematical Practice, K-8* is the one of several books that everyone read now. This specific book was inspired a number of people in the world. When you read this publication you will enter the new dimension that you ever know before. The author explained their idea in the simple way, therefore all of people can easily to comprehend the core of this guide. This book will give you a large amount of information about this world now. So that you can see the represented of the world in this particular book.

##### **Patrice Gasaway:**

Spent a free time and energy to be fun activity to do! A lot of people spent their leisure time with their family, or their friends. Usually they carrying out activity like watching television, about to beach, or picnic within the park. They actually doing ditto every week. Do you feel it? Do you need to something different to fill your personal free time/ holiday? Might be reading a book could be option to fill your totally free time/ holiday. The first thing that you ask may be what kinds of reserve that you should read. If you want to try out look for book, may be the reserve untitled *Putting the Practices Into Action: Implementing the Common Core Standards for Mathematical Practice, K-8* can be excellent book to read. May be it is usually best activity to you.

**Amelia Page:**

Reading can called thoughts hangout, why? Because if you find yourself reading a book especially book entitled Putting the Practices Into Action: Implementing the Common Core Standards for Mathematical Practice, K-8 your mind will drift away trough every dimension, wandering in each aspect that maybe mysterious for but surely will become your mind friends. Imaging each and every word written in a guide then become one type conclusion and explanation which maybe you never get just before. The Putting the Practices Into Action: Implementing the Common Core Standards for Mathematical Practice, K-8 giving you one more experience more than blown away your thoughts but also giving you useful details for your better life within this era. So now let us explain to you the relaxing pattern the following is your body and mind are going to be pleased when you are finished studying it, like winning a game. Do you want to try this extraordinary paying spare time activity?

**Jack Morgan:**

Don't be worry in case you are afraid that this book will certainly filled the space in your house, you can have it in e-book means, more simple and reachable. This kind of Putting the Practices Into Action: Implementing the Common Core Standards for Mathematical Practice, K-8 can give you a lot of close friends because by you considering this one book you have point that they don't and make an individual more like an interesting person. This specific book can be one of one step for you to get success. This book offer you information that perhaps your friend doesn't realize, by knowing more than various other make you to be great folks. So , why hesitate? Let me have Putting the Practices Into Action: Implementing the Common Core Standards for Mathematical Practice, K-8.
