The Passion of Politics: The Role of Ideology and Political Theory in Australia By Lindy Edwards

Behind the evening news lies a world of political ideas and passionate conflict. *The Passion of Politics* unpacks the ideologies and theories which drive these political clashes, helping to explain why we admire some politicians and loathe others. The ideas driving today's politics all have roots in the political struggles of the past. They've been responses to great injustices and challenges, and they've underpinned enormous achievements. In Australia, they've helped create one of the most wealthy, free, and just societies in history. Today we are faced with important choices between flawed options. The struggles of the past have undermined our belief in utopias. Yet the current battles remain crucial to defining our future. Understanding the dynamics of the ideas in play is essential to equipping ourselves to take part in these vital debates.
