Construction Delays: Extensions of Time and Prolongation Claims By Roger Gibson

This book provides guidance on delay analysis, particularly in relation to extension of time submissions. It gives readers the information and practical details to be considered in formulating and resolving extension of time submissions and time-related prolongation claims. Useful guidance and recommended good practice is given on all the common delay analysis techniques, and worked examples of extension of time submissions and time-related prolongation claims are included.

Written in a practical and user-friendly style, the book includes helpful charts and graphics. It will be useful for construction professionals dealing with extensions of time and delay claims, and for lawyers and others who are involved in the contentious side of the construction and engineering industries.

Roger Gibson has over 40 years of planning & programming experience in the construction and engineering industries. During the latter part of his career he has received many appointments as an Expert in time-related disputes.

Editorial Review

Review

"This is an easy to read, concise and very useful book on both extensions of time and prolongation claims. The author successfully blends together the case law, his experience, the protocol and some practical advice against the backdrop of the two quite different standard UK construction contracts of NEC and JCT."

-Institution of Civil Engineers

About the Author
