**Homeward Bound (Worldwar & Colonization) By Harry Turtledove**

**The twentieth century was awash in war. World powers were pouring men and machines onto the killing fields of Europe. Then, in one dramatic stroke, a divided planet was changed forever. An alien race attacked Earth, and for every nation, every human being, new battle lines were drawn. .**

### **HOMEWARD BOUND**

With his epic novels of alternate history, Harry Turtledove shares a stunning vision of what might have been—and what might still be—if one moment in history were changed. In the WorldWar and Colonization series, an ancient, highly advanced alien species found itself locked in a bitter struggle with a distant, rebellious planet—Earth. For those defending the Earth, this all-out war for survival supercharged human technology, made friends of foes, and turned allies into bitter enemies.

For the aliens known as the Race, the conflict has yielded dire consequences. Mankind has developed nuclear technology years ahead of schedule, forcing the invaders to accept an uneasy truce with nations that possess the technology to defend themselves. But it is the Americans, with their primitive inventiveness, who discover a way to launch themselves through distant space—and reach the Race’s home planet itself.

Now—in the *twenty-first* century—a few daring men and women embark upon a journey no human has made before. Warriors, diplomats, traitors, and exiles—the humans who arrive in the place called Home find themselves genuine strangers on a strange world, and at the center of a flash point with terrifying potential. For their arrival on the alien home world may drive the enemy to make the ultimate decision—to annihilate an entire planet, rather than allow the human contagion to spread. It may be that nothing can deter them from this course.

With its extraordinary cast of characters—human, nonhuman, and some in between—*Homeward Bound* is a fascinating contemplation of cultures, armies, and individuals in collision. From the novelist *USA Today* calls “the leading author of alternate history,” this is a novel of vision, adventure, and constant, astounding surprise.

*From the Hardcover edition.*

### Editorial Review

From Publishers Weekly

Alternate-history maestro Turtledove's conclusion to his Worldwar and Colonization sagas, about how lizard-like aliens known as the Race invaded Earth during WWII and were fought to a stalemate by the major Allied and Axis combatants, lacks the vividly described battle scenes of its predecessors, but more than compensates by closely examining the Race's culture and society. While the Race have colonized much of Earth, they're amazed by the human ability to adapt to change. (The aliens' probe some 600 years earlier led them to expect they'd be facing armored knights.) When an American starship makes the trip to Home, the Race's planet of origin, the lizards fear the loss of their technological dominance and decide to annihilate Earth, their colony included... The question of how much common ground exists between the lizards and humans wouldn't have been out of place in old issues of *Astounding*. The author dramatizes the old "nature versus nurture" argument through the moving stories of a human woman raised from birth by the lizards and of two aliens raised as humans. Fans will be pleased that room remains for a sequel.

From [Booklist](#)

Turtledove brings the saga of the Lizards (the Race) and the Tosevites (Big Uglies, or humans) to a resounding and massive conclusion. The human race has developed a starship, and early in the book, it appears in the skies of Home. That sets the Race by the ears (well, it would if they had any), and their respect for and fear of the Tosevites' rate of change and technological ingenuity has them waiting for the other shoe to drop, though they don't wear shoes. [...] Turtledove keeps the story from becoming too convoluted by focusing on Sam Yeager, successful diplomat in spite of himself, and his family, and on Kassquit, the human baby raised as a Lizard, and thereby produces not only a more coherent narrative but also tours de force of characterization. Which is not to say that the book is free of japes, wordplay, and such odd devices as an aging Matt Damon in a pornographic historical epic, all of which reassure the reader that this is indeed a case of Turtledove in full cry. The whole saga, begun in the Worldwar series and continued in the Colonization trilogy, may not quite equal Turtledove's alternate America books, but it certainly ranks as something few other writers would have attempted and even fewer would have brought off so well. *Roland Green*

Review

### PRAISE FOR HARRY TURTLEDOVE

#### THE WORLDWAR SERIES

"Readers will have a perfectly delightful time. . . . Turtledove's storytelling and historiography now march in perfect step. World War II buffs will have a particular romp."

—*Chicago Sun-Times*

"Totally fascinating . . . triumphant . . . possibly the most ambitious in the subgenre's history and definitely the work of one of alternate history's authentic modern masters."

—*Booklist*

#### THE COLONIZATION SERIES

"Hugo winner Turtledove lives up to his billing as the grand master of alternative history."

—*Publishers Weekly* (starred review)

“[A] tour de force of speculative historical fiction. Highly recommended.”

—*Library Journal*

*From the Hardcover edition.*

## Users Review

**From reader reviews:**

### **Robert Tyson:**

Information is provisions for individuals to get better life, information currently can get by anyone from everywhere. The information can be a understanding or any news even a concern. What people must be consider if those information which is inside former life are challenging be find than now's taking seriously which one is acceptable to believe or which one the resource are convinced. If you obtain the unstable resource then you understand it as your main information it will have huge disadvantage for you. All of those possibilities will not happen within you if you take Homeward Bound (Worldwar & Colonization) as the daily resource information.

### **Beverly Dyar:**

Spent a free time and energy to be fun activity to do! A lot of people spent their down time with their family, or their own friends. Usually they carrying out activity like watching television, gonna beach, or picnic inside park. They actually doing same every week. Do you feel it?
