Structural Glass Facades and Enclosures By Mic Patterson

A COMPREHENSIVE GUIDE TO STRUCTURAL GLASS FACADES FOR ARCHITECTS, ENGINEERS, AND BUILDERS

Once an experimental building form, structural glass facades have matured into a fully robust technology. *Structural Glass Facades and Enclosures* documents, defines, and categorizes the current state of the art in long-span glass facade design and construction, with a focus on structural systems, glass cladding options, and implementation strategies for innovative design. A comparative analysis of these various systems is included, along with designs and design practices for enhancing transparency; engineering issues; material, process, and fabrication considerations; installation means and methods; and project delivery strategies for implementing innovative building technology in today's construction marketplace. The reader will find information here that is not available together in any single resource, including:

- Structural system types and design options, with integrated glass system options and their application on each of the structural types
- An in-depth discussion of design, fabrication, and installation issues relative to each system type, accompanied by illustrations and photographs
- A discussion of the challenges of implementing innovative design and technology in the construction industry, and operational practices to improve the probability of success
- A series of in-depth case studies documenting representative samples of stunning built works that employ the technology and design principles identified in the book

Structural Glass Facades and Enclosures provides expert content for putting cutting-edge technology into real-life practice, creating new potential for fresh applications embracing both aesthetic and performance solutions, and for the adoption of the technology by architects, builders, and facade practitioners.

Editorial Review

About the Author

MIC PATTERSON is Director of Strategic Development for Enclos www.enclos.com, one of the largest specialty contractors in the United States, with a focus on the design, engineering, fabrication, assembly, and erection of custom-facade systems. He is part of Enclos's Advanced Technology Studio, a design think tank committed to research and development of advanced facade technology. He was a founding principal of Advanced Structures Incorporated (ASI), a design, engineering, product development, and design/build firm that pioneered structural glass facade development in the U.S. marketplace. Patterson has lectured widely and taught several courses at the university level, most recently an advanced facade course at the University of Southern California entitled Skin and Bones.

Users Review

From reader reviews:

Catherine Browning:

In this time globalization it is important to someone to obtain information. The information will make anyone to understand the condition of the world. The fitness of the world makes the information simpler to share. You can find a lot of referrals to get information example: internet, magazine, book, and soon. You will see that now, a lot of publisher this print many kinds of book. The book that recommended to you is Structural Glass Facades and Enclosures this book consist a lot of the information with the condition of this world now. This specific book was represented how can the world has grown up. The terminology styles that writer value to explain it is easy to understand. The particular writer made some study when he makes this book. Honestly, that is why this book ideal all of you.

Michelle Pacheco:

You can find this Structural Glass Facades and Enclosures by look at the bookstore or Mall. Just simply viewing or reviewing it might to be your solve trouble if you get difficulties for the knowledge. Kinds of this reserve are various. Not only by simply written or printed and also can you enjoy this book by simply e-book. In the modern era just like now, you just looking from your mobile phone and searching what their problem. Right now, choose your personal ways to get more information about your publication. It is most important to arrange yourself to make your knowledge are still up-date. Let's try to choose right ways for you.

Dale Fain:

That publication can make you to feel relax. That book Structural Glass Facades and Enclosures was multi-colored and of course has pictures on the website. As we know that book Structural Glass Facades and Enclosures has many kinds or variety. Start from kids until adolescents. For example Naruto or Private investigator Conan you can read and believe that you are the character on there. Therefore , not at all of book

are generally make you bored, any it makes you feel happy, fun and unwind. Try to choose the best book for yourself and try to like reading in which.

Megan Urick:

As a student exactly feel bored to help reading. If their teacher expected them to go to the library or even make summary for some e-book, they are complained. Just little students that has reading's soul or real their pastime. They just do what the instructor want, like asked to go to the library. They go to there but nothing reading seriously. Any students feel that reading through is not important, boring along with can't see colorful images on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this Structural Glass Facades and Enclosures can make you truly feel more interested to read.
