## The Afterlife Unveiled: What the Dead are Telling Us About Their World

By Stafford Betty

What happens to us when we die? Many think of heaven as an unimaginable state of bliss. As for hell, it's far out of proportion to any sin we might have committed and makes a travesty of God. But what if the afterlife was something very different? Three decades of research have taught the author, a world expert in the field of death and afterlife studies, where the most reliable sources are to be found. These accounts are far better developed and more plausible than anything found in the world's scriptures or theologies. We hunger for a reliable revelation telling us that life here and now is meaningful and good, that each of us has an important part to play in its proper unfolding, that we are accountable for all we do, and that the spirit-denying materialism all around us is a mistake. The world ahead, unlike ours, is fascinating and fair. Authentic channels through which the "dead" speak are the closest thing to the voice of God that our planet has.

### Editorial Review

#### Review

There can be few, if any, more important questions than what happens to us when we die. This book contains what purport to be reports from people who have died, telling us in what conditions they live, and how they may move on from one sphere to another. Whatever they may make of this, everyone will find it intensely interesting.

— **John Hick**, Author of *Death and Eternal Life*, preeminent philosopher of global religion

After conducting a pattern and content analysis of details that spirit sources described about their afterlife world through credible mediums, Dr. Betty spells out 44 specific details of the afterlife, most of which differ from the views of major world religions. Belief in these revelations that the nature of our afterlife existence depends upon using our free will to evolve spiritually in love and wisdom in this life is the core message of this book.

— **Boyce Batey**, Executive Director of Academy of Spirituality and Paranormal Studies

#### About the Author

Stafford Betty has a PhD in theology from Fordham University, teaches religious studies at California State University in Bakersfield, and has gradually evolved into a world expert on afterlife studies. Originally a specialist in Asian religious thought and the philosophy of religion--with many publications to his name, some in top-tier journals--he branched out into paranormal research when he found that the big questions about the meaning of life were unanswered in the safe, tidy world of academic orthodoxy. "Paranormal studies is the next frontier for philosophers and scientists to venture into," Betty says. "It is a tragedy that an area of studies so filled with hope for all of us is commonly snubbed by leading intellectuals and trend setters, who refuse to even look at the evidence." Betty is also a novelist. His latest novel, *The Imprisoned Splendor*, is set in the afterlife.
