

Push Button Agriculture: Robotics, Drones, Satellite-Guided Soil and Crop Management

By K. R. Krishna

Push Button Agriculture: Robotics, Drones, Satellite-Guided Soil and Crop Management By K. R. Krishna

This book covers three main types of agricultural systems: the use of robotics, drones (unmanned aerial vehicles), and satellite-guided precision farming methods. Some of these are well refined and are currently in use, while others are in need of refinement and are yet to become popular. The book provides a valuable source of information on this developing field for those involved with agriculture and farming and agricultural engineering. The book is also applicable as a textbook for students and a reference for faculty.
