## Molinism: The Contemporary Debate From Oxford University Press

Molinism, named after the sixteenth-century Spanish Jesuit Luis de Molina, re-emerged in the 1970s after it was unwittingly assumed in versions of Alvin Plantinga's Free Will Defense against the Logical Argument from Evil. The Molinist notion of middle knowledge--and especially its main objects, so-called *counterfactuals of (creaturely) freedom*--have been the subject of vigorous debate in analytical philosophy of religion ever since. Is middle knowledge logically coherent? Is it a benefit or a liability overall for a satisfying account of divine providence? The essays in this collection examine the status, defensibility, and application of Molinism. Friends and foes of Molinism are well represented, and there are some lively exchanges between them. The collection provides a snap-shot of the current state of the Molinism Wars, along with some discussion of where we've been and where we might go in the future. More battles surely lie ahead; the essays and ideas in this collection are likely to have a major impact on future directions. The essays are specially written by a line-up of established and respected philosophers of religion, metaphysicians, and logicians. There is a substantive Introduction and an extensive Bibliography to assist both students and professionals.

## Editorial Review

### Review

"This volume is, by any reasonable standard, a superb collection of papers.... In short, the collection is required reading for anyone working on Molinism in the future and can also be used effectively to gain a perspective on Molinism itself and the debates surrounding it of the last thirty years or so."--Ken Perszyk, *Notre Dame Philosophical Reviews*

"Ken Perszyk not only provides interesting historical background; he restates the distinction between the theory of middle knowledge, its perspicuous statement, and the discussion of resources that may be called upon to overcoming objections to its deployment, on the one hand, and also its application to grace, predestination and free will, and other theological areas."--*Themelios*
