Stats: Data and Models (3rd Edition)

By Richard D. De Veaux, Paul D. Velleman, David E. Bock

Stats: Data and Models (3rd Edition) By Richard D. De Veaux, Paul D. Velleman, David E. Bock

Stats: Data and Models, Third Edition, will intrigue and challenge students by encouraging them to think statistically and by emphasizing how statistics helps us understand the world. Praised by students and instructors alike for its readability and ease of comprehension, this text focuses on statistical thinking and data analysis. The authors draw from their wealth of consulting experience to craft compelling examples, which encourages students to learn how to reason with data. This book is organized into short chapters that concentrate on one topic at a time, offering instructors maximum flexibility in planning their courses.

The text is appropriate for a one-or-two semester introductory statistics course and includes advanced topics, such as Analysis of Variance (ANOVA), Multiple Regression, and Nonparametrics.

Editorial Review

About the Author

Richard D. De Veaux is an internationally known educator and lecturer. He has taught at the Wharton School and the Princeton University School of Engineering, where he won a "Lifetime Award for Dedication and Excellence in Teaching." Since 1994, he has been Professor of Statistics at Williams College. During 2006-2007 he returned to Princeton as the William R. Kenan Visiting Professor for Distinguished Teaching. Dick has won both the Wilcoxon and Shewell awards from the American Society for Quality. He is a fellow of the American Statistical Association. Dick is also well known in industry, where over 20 years he has consulted for such companies as Hewlett-Packard, Alcoa, DuPont, Pillsbury, General Electric, and American Express. Because of some conversations he had with Mickey Hart while Hart was doing research for his book, Planet Drum, Dick has often been called the "Official Statistician for the Grateful Dead."

Dick holds degrees from Princeton University in Civil Engineering (B.S.E.) and Mathematics (A.B.) and from Stanford University in Dance Education (M.A.) and Statistics (Ph.D.) where he studied with Persi Diaconis. His research focuses on the analysis of large data sets and data mining in science and industry.

In his spare time he is an avid cyclist and swimmer. He also is the founder and bass for the "Diminished Faculty," an a cappella Doo-Wop quartet at Williams College. He was once a professional dancer and teaches Modern Dance during Winter Study at Williams. Dick is the father of four children.

Paul F. Velleman has an international reputation for innovative Statistics education. He is the author and designer of the multimedia statistics CD-ROM ActivStats, for which he was awarded the EDUCOM Medal for innovative uses of computers in teaching statistics, and the ICTCM Award for Innovation in Using Technology in College Mathematics. He also developed the award-winning statistics program, Data Desk, and the Internet site Data and Story Library (DASL) (http://lib.stat.cmu.edu/DASL/., which provides data sets for teaching Statistics. Paul coauthored (with David Hoaglin) ABCs of Exploratory Data Analysis.

Paul has taught Statistics at Cornell University since 1975. He holds an A.B. from Dartmouth College in Mathematics and Social Science, and M.S. and Ph.D. degrees in Statistics from Princeton University, where he studied with John Tukey. His research often deals with statistical graphics and data analysis methods.

Paul is a Fellow of the American Statistical Association and of the American Association for the Advancement of Science.

Out of class, Paul sings baritone in a barbershop quartet. He is the father of two boys.

David E. Bock taught mathematics at Ithaca High School for 35 years. He has taught Statistics at Ithaca High School, Tompkins-Cortland Community College, Ithaca College, and Cornell University. Dave has won numerous teaching awards, including the MAA's Edyth May Sliffe Award for Distinguished High School Mathematics Teaching (twice) and Cornell University's Outstanding Educator Award (three times); he has also been a finalist for New York State Teacher of the Year.

Dave holds degrees from the University at Albany in Mathematics (B.A.) and Statistics/Education (M.S.).

Dave has been a reader for the AP Statistics exam, serves as a Statistics consultant to the College Board, and leads workshops and institutes for AP Statistics teachers. He is currently K-12 Education and Outreach Coordinator and a senior lecturer for the Mathematics Department at Cornell University.

Dave relaxes by biking and hiking. He and his wife have enjoyed many days camping across Canada and through the Rockies. They have a son, a daughter, and twin granddaughters.

Users Review

From reader reviews:

Doris Williams:

What do you about book? It is not important with you? Or just adding material if you want something to explain what the one you have problem? How about your spare time? Or are you busy individual? If you don't have spare time to perform others business, it is gives you the sense of being bored faster. And you have time? What did you do? All people has many questions above. They need to answer that question because just their can do that will. It said that about publication. Book is familiar on every person. Yes, it is correct. Because start from on guardería until university need this particular Stats: Data and Models (3rd Edition) to read.

James Gabriel:

This Stats: Data and Models (3rd Edition) are reliable for you who want to certainly be a successful person, why. The reason why of this Stats: Data and Models (3rd Edition) can be one of the great books you must have is usually giving you more than just simple studying food but feed you with information that probably will shock your earlier knowledge. This book is handy, you can bring it almost everywhere and whenever your conditions in e-book and printed kinds. Beside that this Stats: Data and Models (3rd Edition) giving you an enormous of experience for example rich vocabulary, giving you trial of critical thinking that we know it useful in your day exercise. So , let's have it and luxuriate in reading.

Leroy Ange:

Reading a book for being new life style in this 12 months; every people loves to read a book. When you go through a book you can get a lots of benefit. When you read ebooks, you can improve your knowledge, simply because book has a lot of information onto it. The information that you will get depend on what sorts of book that you have read. If you would like get information about your research, you can read education books, but if you want to entertain yourself you can read a fiction books, these us novel, comics, in addition to soon. The Stats: Data and Models (3rd Edition) will give you a new experience in examining a book.

Violet Jarrell:

What is your hobby? Have you heard that will question when you got learners? We believe that that problem was given by teacher for their students. Many kinds of hobby, Every individual has different hobby. And you know that little person just like reading or as studying become their hobby. You should know that reading is very important and also book as to be the factor. Book is important thing to add you knowledge, except your personal teacher or lecturer. You will find good news or update with regards to something by book. A substantial number of sorts of books that can you decide to try be your object. One of them are these claims Stats: Data and Models (3rd Edition).
