## GODZILLA By MARK COTTA VAZ

Published to coincide with the release of Warner Bros. and Legendary's Godzilla, directed by Gareth Edwards, this visually stunning book presents an extraordinary new vision for the beloved character through a dynamic selection of concept illustrations, sketches, storyboards, and other pre-production materials. Godzilla: The Art of Destruction is the definitive book on one of the most anticipated films of 2014. Featuring interviews with the director and key crew and cast members, the book tells the complete story of the making of Godzilla from concept to final frames. Comprehensive and enthralling, Godzilla: The Art of Destruction is a book that no fan will want to be without.

## Editorial Review

### Review

“...richly detailed and a must-have for Godzilla fans.”

—*Examiner*

“...brings the Kaiju to your coffee table... a beautifully designed book...a must for die-hard fans of Godzilla and film buffs alike.”

—*Geekadelphia*

“...a giant, beautiful book that would be equally at home on a coffee table or on a shelf alongside other textbooks on how movies are made. The people at Insight Editions always impress with the quality of what they do, and this grand, exhaustive title is no exception.”

—*Tech Times*

“Whether you want to read and see images of cut scenes (such as the Godzilla and MUTO fight at sea) or want to get more in depth information about the MUTO and Godzilla’s history, it’s all here.”

—*DVD Corner*

“...one of the most handsomely designed and published behind-the-scenes movie art books I’ve ever seen.”

—*Film Edge.net*

“It honestly doesn't matter if you liked the film or not. Anyone who loves movie art books will want to add this one to the shelf. It's a little piece of movie history all on its own. You'll even discover a removable poster tucked away in the back.”

—*Mania*

“...Without a doubt this is a book that speaks to both collectors and fans of the movie.”

—*Geek Native*

“...The book's as lavishly produced as you'd expect, and offers a veritable goldmine of stuff for movie geeks or fans of design in general.”

—*Den of Geek*

“...this book is a must-have for fans of the Toho legend, the movie making process or simply those of you who just appreciate “awesome.”

—*Moviepilot*

“...offers everything that diehard fans of the movie could want.”

—*Washington Post* quoting Insight Editions' Senior Editor, Chris Prince

“...this is an impressive hardcover coffee-table book that immediately asserts itself as a must-have book for any Godzilla enthusiast.”

—*Godzilla News*

“On its own, the concept art is often beautiful, suitable for framing (if it could be printed and framed, that is),

while the storyboards offer the kind of insight burgeoning filmmakers or fans of the production process will eagerly embrace. The photos, a mix of behind-the-scenes photos with the occasional greenscreen in the background, and set photos nearly identical to shots taken from the final film, offer additional production insights...Ultimately, readers of *Godzilla: The Art of Destruction* will come away from reading the book with the recognition of the massive complexity behind a production like Godzilla. Edwards and his creative team accounted for practically every detail before, during, and after production.”

—***Screen Invasion***

“Each page seems to be carefully put together to create a stunning mix of information, photography and art. Top that off with a director like Gareth Edwards who has become a fan favorite within the fandom of Godzilla, his introduction in the book will more than likely make this book a coveted item for Godzilla collectors...For its size it packs as much power as Godzilla’s nuclear breath.”

—***Universe G***

“...among all of the interviews with the cast and creative team on the film, it also features a series of early, rejected designs for Godzilla. Several images are accompanied by comments from *Godzilla* director Gareth Edwards regarding the reasons the designs were rejected.”

—***Digital Trends***

“...an exhaustive look the production process by way of on-set photography, storyboards and, best of call, concept art, the book features a centerpiece spread that readers can fold out that contains various designs for Godzilla.”

—***Coming Soon***

“This awesome tome looks at the making of Gareth Edwards' film hitting theaters this Friday and, within, you'll find an exhaustive look the production process by way of on-set photography, storyboards and, best of call, concept art.”

—***Shock Til You Drop***

“The book delves into the making of Warner Bros. and Legendary’s *Godzilla* with concept illustrations, sketches, and storyboards, and is perfect for fans of big, scaly monsters who have all the feels.”

—***TOR.com***

“... chronicles the making of Godzilla from its conception to the final product. If you’re excited to see Godzilla this weekend (and we know you are), you’ll want to get your claws on this bad boy.”

—***Nerdist***

“*Art of Destruction* provides a glimpse at how the filmmakers envisioned the chaos and devastation they wanted their film to encompass. From what we’ve seen from the finished product, they did a hell of a job translating the ideas from page to screen. Even the cover of this book is freaking epic.”

—***Giant Freakin Robot***

#### About the Author

Mark Cotta Vaz is a New York Times best-selling author with more than 25 published books, including the critically acclaimed *Living Dangerously: The Adventures of Merian C. Cooper, Creator of King Kong*, a TLA finalist selection. His "making of" books include *Godzilla: The Art of Destruction* and *Interstellar: Beyond Time and Space*.

## **Users Review**

### **From reader reviews:**

#### **Quincy Eddy:**

With other case, little persons like to read book GODZILLA. You can choose the best book if you'd prefer reading a book. As long as we know about how is important a new book GODZILLA. You can add information and of course you can around the world by a book. Absolutely right, because from book you can understand everything! From your country until eventually foreign or abroad you will be known. About simple thing until wonderful thing it is possible to know that. In this era, we can open a book or maybe searching by internet gadget. It is called e-book. You may use it when you feel weary to go to the library. Let's go through.

#### **Jeffrey Richard:**

Here thing why this kind of GODZILLA are different and reputable to be yours. First of all looking at a book is good nonetheless it depends in the content than it which is the content is as delightful as food or not. GODZILLA giving you information deeper including different ways, you can find any guide out there but there is no reserve that similar with GODZILLA. It gives you thrill reading journey, its open up your personal eyes about the thing which happened in the world which is maybe can be happened around you. It is easy to bring everywhere like in park, café, or even in your method home by train. In case you are having difficulties in bringing the paper book maybe the form of GODZILLA in e-book can be your substitute.

#### **Aurora Foster:**

Information is provisions for folks to get better life, information currently can get by anyone on everywhere. The information can be a knowledge or any news even a huge concern. What people must be consider any time those information which is inside former life are hard to be find than now is taking seriously which one is acceptable to believe or which one the particular resource are convinced. If you find the unstable resource then you understand it as your main information we will see huge disadvantage for you. All those possibilities will not happen with you if you take GODZILLA as the daily resource information.

#### **Shirley Davenport:**

As we know that book is important thing to add our information for everything. By a publication we can know everything we want. A book is a pair of written, printed, illustrated or even blank sheet. Every year was exactly added. This reserve GODZILLA was filled with regards to science. Spend your extra time to add your knowledge about your science competence. Some people has various feel when they reading some sort of book. If you know how big good thing about a book, you can really feel enjoy to read a e-book. In the modern era like right now, many ways to get book you wanted.
