**Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled)** By Marco Schwartz

**Automate your home using the powerful Arduino platform**

## About This Book

- Interface home automation components with Arduino
- Automate your projects to communicate wirelessly using XBee, Bluetooth and WiFi
- Build seven exciting, instruction-based home automation projects with Arduino in no time

## Who This Book Is For

If you want to build your own home automation systems wirelessly using the Arduino platform, this is the book for you. You will need to have some basic experience in Arduino and general programming languages, such as C and C++ to understand the projects in this book.

## What You Will Learn

- Connect home automation sensors to the Arduino platform
- Use the XBee technology to build low-power wireless motion sensors
- Interface a relay with Arduino to control devices in your home
- Utilize Wi-Fi to control a lamp remotely
- Employ Bluetooth and Arduino to measure the temperature remotely
- Send energy consumption data to the cloud
- Hack an existing home automation device using Arduino

## In Detail

The Arduino platform is used by more than one million people around the world to prototype electronic systems. It is the perfect platform to use to build home automation systems, as it allows you to build your own motion sensors, control lamps remotely, and control preexisting home automation devices. The Arduino platform also allows you to build wireless home automation systems using well-known technologies such as Bluetooth and Wi-Fi.

This book shows you how to use the Arduino tiny microboard to live like a king. The book covers several projects you can perform using the Arduino platform. The first few projects comprise the basics of home automation, such as building a wireless motion sensor, controlling a lamp remotely, and building a Bluetooth temperature sensor. Then, this book dives into the Internet of Things, helping you get a clear understanding of how to send measured data to the cloud. The book will wrap up by showing you how to communicate and control an existing device and build your own home automation system.

### **Editorial Review**

About the Author

#### **Marco Schwartz**

Marco Schwartz is an electrical engineer, entrepreneur, and blogger. He has a Master's degree in Electrical Engineering and Computer Science from Supélec, France, and a Master's degree in Micro Engineering from EPFL, Switzerland. He has more than 5 years of experience working in the domain of electrical engineering. His interests gravitate around electronics, home automation, the Arduino and Raspberry Pi platforms, open source hardware projects, and 3D printing. He runs several websites based on Arduino, including the Open Home Automation website that is dedicated to building home automation systems using open source hardware. He has written another book on home automation and Arduino called Home Automation with Arduino, CreateSpace. He has also published a book on how to build Internet of Things projects with Arduino called Internet of Things with the Arduino Yun, Packt Publishing.

### **Users Review**

**From reader reviews:**

#### **Howard Martinez:**

Book is to be different for every grade. Book for children until eventually adult are different content. To be sure that book is very important normally. The book Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) seemed to be making you to know about other expertise and of course you can take more information. It is extremely advantages for you. The publication Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) is not only giving you considerably more new information but also being your friend when you sense bored. You can spend your personal spend time to read your publication. Try to make relationship with all the book Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled). You never experience lose out for everything in case you read some books.

#### **William Roger:**

Here thing why this particular Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) are different and dependable to be yours. First of all looking at a book is good but it really depends in the content from it which is the content is as tasty as food or not. Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) giving you information deeper and in different ways, you can find any publication out there but there is no e-book that similar with Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled). It gives you thrill examining journey, its open up your own eyes about the thing which happened in the world which is probably can be happened around you. You can easily bring everywhere like in recreation area, café, or even

in your means home by train. In case you are having difficulties in bringing the paper book maybe the form of Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) in e-book can be your substitute.

### **Estelle Hicks:**

This Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) is completely new way for you who has fascination to look for some information given it relief your hunger associated with. Getting deeper you in it getting knowledge more you know or perhaps you who still having tiny amount of digest in reading this Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) can be the light food for yourself because the information inside this specific book is easy to get by means of anyone. These books develop itself in the form which is reachable by anyone, yeah I mean in the e-book application form. People who think that in e-book form make them feel tired even dizzy this guide is the answer. So there is absolutely no in reading a book especially this one. You can find what you are looking for. It should be here for you. So , don't miss the idea! Just read this e-book kind for your better life in addition to knowledge.

### **Patricia Beall:**

Do you like reading a publication? Confuse to looking for your preferred book? Or your book has been rare? Why so many question for the book? But just about any people feel that they enjoy with regard to reading. Some people likes looking at, not only science book and also novel and Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) as well as others sources were given understanding for you. After you know how the fantastic a book, you feel would like to read more and more. Science e-book was created for teacher or maybe students especially. Those books are helping them to put their knowledge. In different case, beside science reserve, any other book likes Arduino Home Automation Projects : Automate your Home using the powerful Arduino Platform (Community Experience Distilled) to make your spare time much more colorful. Many types of book like here.
